LOCAL NEWS.

RAILROAD NEWS .-- The freight engine, Rupidan, on her way up from Alexandria, on Monday evening last, at Bcukton station, met with a slight accident, which we are pleased to say was not accompanied with serious results. An opening of about 18 inches was made in her boiler, but the extraordinary skill of her engineer, Mike Lyuch, prevented further damage. The fireman was slightly injured by jumping from the engine. - Sheuannoah Dem.

The facts of the case are as follows: The boiler commenced to leake badly when the engine was between Buckton and Waterlick on her way to this city, and upon examination it was found that there was a crack of eight inches in the wagon top of the boiler.

ICE ON THE SIDEWALKS .- The dangerous condition of many portions of the sidewalks in different quarters of the city-made so by persons allowing their hydrants to run in order to keep the water in them from freezing-has been commented upon frequently in these colums. What was foreseen has occurred. Last evening Mrs. George Price, an elderly lady. while walking along King street, slipped on the ice that had formed on the pavement between Pitt and St. Asaph streets, and falling. broke her leg between the ankle and knee joints. She was taken home in a hack, the necessary surgical assistance rendered by Dr. Brown, and this morning, she was said to be in a favorable condition. There are provisions in the ordinaces of the Corporation against the cause of this accident, and they should be enferced. The wonder is that more injuries of the same sort did not occur during the past winter, when for weeks at a time certain portions of the sidewalks were almost impassable.

RIVER NEWS.—There is still considerable ice in the river, though steam vessels experience but little difficulty in passing through it. The trips of the Mount Vernon steamer Arrow. which have been suspended since Tuesday, will be resumed to-morrow. The Virginia, of the Maryland ferry line, which was caught on the opposite side of the river, has been running up and down the swash channel on that side to-day, these on board of her easting longing glances in this direction, but she is unable to force her way through the ice that covers the intervening flats. The steamer Wawaset, of the Cone No. 50 King street. river line, will recommence her regular trips on that line next Tuesday.

It is the desire of the Assessors to make their returns as accurate as possible and at as early a day as they can.

San Francisco, March 6.—John Dolen arrived at Yreka to-night from the front. He reports that Judge Rosborough and E. Steele had been to Captain Jack's camp for a long time and were unable to make any compromise, the Indians being determined to fight. The terms offered by the commissioners, at last accounts, were that the Modocs should go on the Klamath reservation, where they had been before. Rather than do this the Indians had determined to fight. When Dolen left last night orders had been given for the soldiers to march on the lava beds and three hundred would start immediately. The com-nearding officer is now determined to accept no terms but unconditional surrender. Colonel Sprague, paymaster, started for the front this morning with finals to pay the troops in the field. It is believed now that nothing but fighting will savisfy Captain Jack.
